700 CLUB 10-9-85

ROBERTSON
NEA

"An organization called the National Council for Better Education announced a new ad campaign which they feel challenges the goals of the NEA."

SALLY REED, President of the National Council for Better Education

"The National Education Association, in my opinion, is not interested in education or quality education. They're interested in power and they're interested in promoting left-wing politics in this country."

ROBERTSON

"They even have a pamphlet on how to quote counter the new right..."

SALLY REED

"That's called Thirty One Flavors of Extremism - A Rebuttal to the New Right. When we first saw that, seeing as how 28 of the charges come directly from my book we decided we should do a rebuttal to their rebuttal..."

"The NEA views classrooms today as social experimentation labs...and teachers...you either toe the line or they'll make your life miserable for you."

"We are making a Professional Educator's Guild which will be a professional association which will have nothing to do with collective bargaining or left-wing, or for that matter conservative politics. It's a professional association."

700 CLUB 10-10-85

ROBERTSON
Ted Kennedy

"His wife has just put out a book about his philandering. She said that his activity apparently drove her to be an alcoholic. How can a man with that background and Chappaquiddick even consider being a president?..."

ED ROLLINS, Director of the Reagan/Bush 1984 Campaign

"He can lose thirty pounds but he can't lose his history."

"I think we [Republicans] have a group of outstanding candidates ...a lot of speculation about Pat Robertson."

700 CLUB 10-11-85

AIDS

AIDS was the issue of this show, specifically the closing of gay bath houses and whether this was a civil rights issue.

JERRY FALWELL

"When the gay community, en masse, almost totally objects to anything that is clearly for the public welfare and the public health and the public good -- [then] there comes a time when we must ignore what they're saying."

"The time will come when you'll be hearing words like quarantine. Now, I'm not calling for quarantine, but the time will come when the gay community, because of promiscuous homosexuals who have AIDS and who are intentionally engaging in sex with other homosexual men, will be such a danger to the homosexual community, you'll have gay leaders calling for their quarantine."

ROBERTSON

Homosexuals

"The question isn't just promiscuous homosexuality. It's the question that homosexuality, according to the Bible, is wrong. In general, it is wrong. Just like heterosexual activity outside of marriage is also wrong. As one of the victims in that piece said, 'We've defied nature.' We've done something that is unnatural and against nature...and we, in a sense, if I can use Biblical language, are bringing on our bodies the recompense of the activity. We are bringing about this in our own bodies. And the answer to it is to stop."

"The term 'gay' is given to that lifestyle. It's anything but gay. How can you be gay when you're facing death from AIDS? How can you be gay when you're eaten up with hepatitis? How can you be gay when you have gonorrhoea? How can you be gay if you've got some intestinal disease? And the incidence of these things..is so much higher in this lifestyle. That isn't gay. That's sadness. That's grief, to be facing death."

AIDS

"Yes, he'll heal AIDS too if you've got it. He's got that kind of power too."

700 CLUB 10-25-85

ROBERTSON

SDI/Summit

"Our president is going to need all the help he can get when he goes into those negotiating sessions. The Soviets do not like SDI because it would give up a clear superiority. But in a humane

sort of fashion, this is something in a sense the religious community could like because it frees the population of civilians from the threat of a nuclear terror...This is essentially a defensive weapon system. It has nothing to do with offense at all. It merely defends us against somebody who wants to hurt us. That obviously, is a Christian, if you will, response if there could be something like that."

NEWS GINGRICH (R-GA)

"Lessons of Grenada"

"Real morality requires that...we be in favor of freedom fighters that we be in favor of trying to help people help themselves."

Nielsen Ratings

Robertson also mentioned on this program that 19.1% of all the people in America who own television sets watch the "700 Club." According to Nielsen, this is "in the neighborhood of 28 or 29 million people."

OLD TIME GOSPEL HOUR 10-6-85

FALWELL

South Africa

"South Africa must not become a part of the Soviet orbit."

"I have never paid as severe price for taking a stand as I have for taking this one. In the past 4 or 5, 6 weeks we have lost more than one million dollars in our contributions from our friends. Why?, because the national media has succeeded in painting me as a racist, as a personal propheteer, I mean the most vile things that they have done to us. For the first time, the national media has a very good possibility of closing down the Old time Gospel hour. We must have your help. We've got to have your response...We are in a desperate situation right now because of the venom, the poison, and the dishonesty of the American media."

"When I was debating Reverend Jesse Jackson on Ted Koppell's Nightline I challenged him to name one elected black official in all of South Africa who favored disinvestment and who agreed with Reverend Jackson and Senator Kennedy and others on sanctions. He could not name one."

"And yet the American media paints the picture...that the Botha government is not committed to change and they're always cast in that light...there is not a conspiracy but a mindset among the American media to destroy one more friend of the United States."

"It appears that those who would be hurt most by disinvestment are those who can least afford it...so easy for politicians in

this country to hypocritically prescribe cures for South Africa, but the fact is, it's not that simple. It's a very complex issue."

Blacks

"Thomas Road Baptist Church, on any given Sunday will have hundreds of black members...we are the most, in my opinion, integrated church of our size in the nation...And yet the NAACP came to Lynchburg recently and conducted a march, a demonstration against the Thomas Road Baptist Church...I met with them, I told them I agree, apartheid is wicked, it must go..."

Reagan/Congress

"We're about to win the South Africa issue because of a courageous President, Mr. Reagan, and many in the Congress who had their minds changed. Who, in recent days, called me and said, 'I've watched your debates and I've changed my mind on sanctions and disinvestment.' We are winning the battle of public opinion."

"We are about to be shut down in our gospel ministry because we are a million dollars behind. We need at least a million dollars to continue the battle. I need your gift here in the next ten days. We could lost this station carrying this program right now..."

"...President Botha and his national party are committed to reform. They're moving away from discrimination practices. [Interview with President Botha]"

"...You know when the communist take over as in Mozambique or Zimbabwe, Nicaragua [etc.] there's never again an election, no free press. There's never any hope for change...Regardless of what you think of the Soviets and the Cubans, they do a pretty good job of keeping what they steal, keeping what they steal."

"We need to educate our public. That is why we have published this sixteen-page special report on the Untold Story about South Africa. That's why I want to put a million copies of this tabloid in the hands of leaders all over America..everyone of us needs to contact our congressmen, our senators...regardless of what your view is...you ought to be seeing to it that your congressmen, your senators, your members of the House of Representatives represent you...Everyone of us needs to be involved in a very special way in helping South Africa - humanitarian efforts..accelerating investments because it helps the blacks, the coloreds, and the Indians to have work."

"One day there will only be us [the U.S.]. Everybody else will be under the hammer and sickle."

OLD TIME GOSPEL HOUR 10-13-85

FALWELL

Rock Music

"People Magazine went on to say that much of the rock music of the world today, much of the sadistic, masochistic rock music of our day contributes to many of the horrible, the slayings that are going on in our country and the satanic worship that's going on. You know Christians have been saying that for a long time."

South Africa

"Why do men behave the way they behave? How do you explain an Adolf Hitler? How do you explain the Nightstalker? How do you explain a Gorbachev or a Kruschev heading up an empire that's slaughtered 142 million people? How do you explain an Oliver Tambo, who orders by radio the people of South Africa, the black Communists inside the country, to kill and slaughter and slay innocent blacks?"

"For the past several years, the PAC mentality, the American media, and for that matter, the international media has launched a search out and destroy attack against South Africa. Oh, how they have railed against South Africa. Now they've taken what they portray as the high moral ground by saying that apartheid, racial discrimination, is the issue in South Africa."

"Well, they know that everyone agrees with them that apartheid is reprehensible and must be eliminated...What they have not told us is there's a tremendous Marxist effort, a campaign of long term, operatives in South Africa. [And it's illustrated by the existence of] groups like the African National congress, the UDF, Azapo, etc., committing crimes. These are black Marxists who are committing crimes of murder and terrorism against the black population. And the press does not tell us that they are creating..an ungovernable situation so that the government there that is moving toward reform and eliminating as quickly as is feasible and not politically suicidal, apartheid and all discrimination. At the same time, the government must go in and break up this violence and bloodshed and if they do that the American media shows them doing it. Never saying they're breaking up violence, but rather they're causing it. Or they must stand back and allow the atrocities to occur and that also is inhuman. So they're put in sort of a no win situation."

"The problem with the American people has been that we have had no one to tell us the other side...Right now a recent poll indicates that a majority of Americans no longer want disinvestment and sanctions against South Africa. The American people, when they get the facts, make the right decisions."

"Did you know that the Soviet Union has already renamed South Africa. Just as Rhodesia became Zimbabwe, the name of South

Africa is the Azanian People's Republic. That's the new name once they take it over and kill everybody who's in the way."

Gorbachev

"We look at Gorbachev. There's some who say, 'he's such a nice fellow...' One must remember that he is the head of a godless empire. Godless. I meant to say that. Atheistic. I meant to say that. They've murdered 142 million people in 68 years. I meant to say that. It's a fact. They're in their 69th month of genocide in Afghanistan. And in order to be the head of that empire, whether you're Stalin or Kruschew or Brezhnev or Gorbachev, you've got to be the worst rat in the pack. That's just a fact. You don't go up because you teach Sunday school. You go up because you're the meanest, the smartest, the most scheming, the most Godless -- the worst of the lot. That's how you get to be king there."

Pray for President

"And we must be prayerful for our President as they meet. That he is not by the American media painted in to the corner as some kind of ogre if he doesn't give away the farm."

Homosexuals

"You say, how can a person live as a homosexual and commit the terrible acts they commit? It wasn't easy at first. Your heart becomes hardened. Your conscience seared as you persist in sin."

FALWELL LIVE 10-~~8~~-85

FALWELL

PFAW

"[I'd like to read] a few comments from groups like **People for the American Way** (That's Norman Lear's anti-Christian organization. That's my personal definition of this organization. Seems very obvious that's what he's trying to do) and the National Education Association and the American Library Association. These comments: 'Mel and Norma Gabler -- the two most powerful people in education. Far too influential,' they say. 'The two most dangerous people in education. Narrow-minded zealots. Ultra-fundamentalists. Obstructionists. America's number one censors. Two ignorant fear-mongering right-wing fruit loops who have spent the last twenty years doing untold damage to public education.'"

"I want to congratulate you for doing all that. God bless you. You can tell somebody by their enemies. And you have all the right enemies."

Secular Humanism

A five minute report on secular humanism followed, during

which Onalee McGraw of the National Council on Education Research appeared saying that secular humanism finds its most serious manifestation in the public schools of the United States.

Pat Robertson

Mel Gabler, later in the show, talked about Pat Robertson's new reading program, which teaches phonics, for inner city children. Falwell said that he hadn't heard about it, but, "I thought if Pat Robertson would be associated with it, it would be okay."

New Gabler Book

"I believe if we get a million copies of this out in the hands of America's parents, we won't have a problem with the junk textbooks like this one...It's [the book] fantastic. I wish I had this twenty years ago."

MEL GABLER

Secular Humanism

"...a spiritual battle. It's Christ against humanism."

Textbooks

Then they went through several textbooks, describing the "filth" and other things wrong with them. The books included "Finding My Way, a sex education textbooks (mentions masturbation forty three times on two and a half pages); New Voices II, a tenth grade reading series by Ginn (reading a suicide poem as an example of the book's lack of merit); Inner City Mother Goose, published by Simon and Schuster (a book of poems about inner city life used as a textbook in some schools); and Modern Sex Education, by Holt, Rinehart and Winston.

FALWELL

"This is not modern sex education; it's academic pornography."

Norman Lear

"We have a chair sitting over here usually for Norman Lear. Anytime he wants to come. He can't send his flunkies now. Buchanan or Podesta and all that route. Oh, he won't come 'cause I've got some questions I want to ask him."

JIMMY SWAGGART MINISTRIES

SWAGGART

Supreme Court

"I get angry over Supreme Court justices that allow such travesty of justice to happen [abortion]."

Homosexuals

"I get angry at church ordaining homosexuals to preach some kind of deluded gospel."

Feminists

"I get angry at the feminists that disregard the God of this Bible and laud that which is perverted!"

Evolution

"I'm angry at the garbage my children are being taught in the public schools. That we came from monkeys and disregarding God!"

Ten Commandments

"I'm angry that in the public schools of this nation the Ten Commandments cannot even be hung on the walls for our school-children."

JIMMY SWAGGART MINISTRIES 10-27-85

SWAGGART**Jews**

Swaggart opened this show by mentioning Samuel Blumenfeld --
"...converted Jew. I like that."

Education

He quoted from Blumenfeld's book about the National Education Association and said, in summary, "...in other words, they've set out to make a socialist nation of this country."

"Let me tell you what they've done in America. The new educational structure in our nation being taught in our elementary and secondary school systems. This is the reason that Christian schools are becoming so tremendously important and maybe the only salvation for this generation."

Swaggart went on to say that this system was not started by educators, but by psychologists. "A designed, instigated, perpetrated plan to design an educational system which will purposely turn out illiterates so they can no longer read the Bible or anything else and cannot think for themselves and will then be easy to herd into a socialistic type of government."

"[Values clarification sounds good], but it's deadly."

Swaggart then talked about the potential ruin of the family, saying that it "is the next foundation the Satan has set in to destroy. The family."

Conservative Judges

"Judges today are awarding homosexuals little children. Thank God, I heard just a short time ago over the news that President Reagan is fastly setting up federal judges who have a conservative viewpoint that leans toward the word of God and I

say thank God for that news a thousand times over.

"Any judge that would award a little boy or a little girl to a homosexual has cabbage for brains!"

Christian humanism

"We not only have secular humanism, we have Christian humanism. What is that? That's the preacher that stands behind the pulpit and tells you he doesn't believe all of this book, and the days of miracles are over. He tries to mix evolution and creationism."

DR. D. JAMES KENNEDY 10-27-85

This was a special broadcast that featured Kennedy preaching at the Southern Baptist Pastors Conference.

KENNEDY

Education

"We have turned education over to unbelievers and they have perverted it and distorted it. They have replaced the Christian foundation with unbelieving humanism."

"And we have an educational system in this country, today, which, to a large degree, is perverted in the ways of God and twisting the minds of young people."

Evolution

"We think of science, but that too, has been taken over by unbelievers. And they have formed out of science one of the most formidable weapons ever used against the Christian church in their ungodly doctrine of evolution. They have attacked the scriptures on the very first page."

"For decades now the churches have been all too silent on these things and alien forms of views of government have swept across this land and socialism and humanism and all sorts of other tyrannical ideas have become popular in our day."

"We have let the unbelievers convince America that this is a secular nation."

Church/State

"There is the erroneous idea of the separation of church and state which has become popular in the recent decades. This is a huge axe which is being used to demolish every vestige of Christianity in this nation."
